Disaster Recovery

# Barracuda XDR

**What problem are we solving?**

# *1. Global Lack of Talent*

## *2. Understanding & Communicating Cyber Risk*

### *3. Managing Cybersecurity Solutions*

# Cybersecurity Hygiene

## Identify

- Asset inventory
- Vulnerability scans
- Risk assessments

## Protect

- Security policies
- Access controls
- Patching
- Configurations
- Security training
- Network, & endpoint protections
- Zero Trust Access
- Data loss prevention

## Recover

- On-premises backup
- Cloud backup
- Data archiving

# Cybersecurity Hygiene

## Identify

- Asset inventory
- Vulnerability scans
- Risk assessments

## Protect

- Security policies
- Access controls
- Patching
- Configurations
- Security training
- Network, & endpoint protections
- Zero Trust Access
- Data loss prevention

## Detect

- Event processing & correlation
- SOC alert investigation and validation

**XDR**

## Respond

- Automated remediation
- Threat isolation & blocking
- Prescriptive runbooks
- Incident response guidance

**XDR**

## Recover

- On-premises backup
- Cloud backup
- Data archiving

# Thank You
